MSHCST3 MSHXLCST3

- C-RHEX® Hex Drivers feature reversible 3/8" and 7/16" hex sockets for quick changes between sizes for fasteners used in commercial jobsites
- Varying lengths: 2", 4" and 6"
- Built with an easy-clean magnet – eliminate pesky metal shavings by removing the socket and wiping with a glove or shop towel
- One-piece driver strength suitable for use on a drill or an impact driver

- C-RHEX® SAWTOOTH Hex Drivers feature reversible 3/8" and 7/16" hex sockets for quick changes between sizes for fasteners used on commercial jobsites
- Rapidly remove sealant and adhesive-coated fasteners
- Varying lengths: 2" and 6"
- Built with an easy-clean magnet – eliminate pesky metal shavings by removing the socket and wiping with a glove or shop towel
- One-piece driver strength suitable for use on a drill or an impact driver
