TSPC1

Malco®

Invest in Quality. Cut Like a Pro.

Introducing the newest innovation in the TurboShear® line — the **Malco TurboShear® Rotary Panel Cutter**. Purpose-built for professionals, this high-performance tool is the solution you've been waiting for to cut metal ribbed roofing and wall panels or vinyl siding with unmatched precision and ease. This model features dual opposing cutting wheels—designed to self advance the tool smoothly through metal and vinyl material, leaving a clean, precise cut. With a 22-gauge cutting capacity, the TSPC1 is built to handle tough jobs with confidence.

Product Features:

Precision Rotary Cutting:

The rotary-cutting design delivers a consistent, professional edge without distortion, creating clean lines.

Use Your Own Power Source

Unlike “all-in-one” solutions on the market, the TurboShear® Rotary Panel Cutter allows you to use your own drill. Designed exclusively for brushless drills (not impacts).

Self-Advancing Design

Say goodbye to hand fatigue. The rotary action provides a self-advancing cut, letting the tool do the work.

Durable by Design

With a 22- gauge cutting capacity, this tool is built to last through tough jobs. With replaceable blades, it delivers long-term performance without compromise.
