

GOBLUE!

Hex Driver Variety Pack

Spring-Loaded Magnet

Same GOBLUE! Strength Now in a 3-Pack of Essential Sizes

Distinctive Malco GoBlue Magnetic Hex Chuck Drivers are designed for the toughest fastening applications. These impact-grade hex drivers are precision machined to ensure fail-proof fastener engagement. A spring-loaded, floating magnet prevents breakage from both impact driver stress and high-profile screw heads that may seat directly on the magnet. Now available in a convenient 3-pack featuring three essential sizes, the GoBlue line delivers even more versatility and value in one smart package.

Product Features:

Durable Construction:

Constructed with S2 hardened steel and built for long-lasting durability.

Self-Adjusting Spring-Loaded Magnet:

Automatically adjust to fasteners of varying head heights allowing for secure worry-free fastener placement.

Impact-Grade Durability:

Built to withstand high torque and heavy use with power tools.
